To Whom It May Concern:

I received the Notice of Public Hearing, SUP 13362, SUP 13490, and SUP 13495. These are petitions requesting special use permits to be issued, which would allow for the construction and installation of billboards at three sites near the intersection of Martin L. King Dr. and Charleston Blvd.

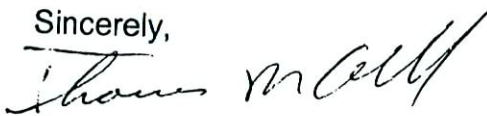

I was present at the meeting of July 13, 2006 where I planned to voice my objection to these three proposed billboards. As you know, the hearings on these three proposals were continued until the August meeting. As I will be out of town on business at that time I would like to express my objections in writing.

As a resident of the Scotch 80's area I object to the use of more billboards in this area. The billboard located near the intersection of Charleston and Rancho has objectionable material on it more times than not. The area near Charleston and Martin L. King is already congested and cluttered. Billboards would add nothing of value to this area.

I am wondering what the ulterior motive of the petitioners is in trying to get permits for the billboards at this time. This area is destined to be re-configured in the next couple of years when Project Neon begins, which is going to affect the intersection with the construction of new ramps for I-15, flyovers linking Martin L. King to Western and Industrial and widening I-15 itself. Will taxpayers' dollars be used to pay the owner of the billboards for their property and potential lost income?

Again, to summarize, I would like to register my objection to the proposed billboards – SUP 13362, SUP 13490, and SUP 13495.

Sincerely,

Thomas M. Arlt

To Whom It May Concern:

This is to advise you on behalf of the entity I represent, that objection to above permit applications is hereby made. Traffic in the area is a problem now and proposed development in the immediate area is only going to increase financial costs to the public, as well as create hazards that could result in accidents.

Very truly yours,

L. Earl Hawley, Esq.
